### § 336.3 Policy.

(a) It is the policy of the Department of Defense to encourage the maximum practicable participation of the public in the formulation of regulations having a substantial and direct impact on the public, and to inform the public fully through publication in the FEDERAL REGISTER of all adopted regulations intended for public guidance.

(b) A proposed regulation which would originate a Department of Defense policy having a substantial and direct impact on the public should be published, along with a notice of purpose and authority, in the FEDERAL REGISTER in order to invite public comment within a designated time at least 30 days prior to its intended adoption. This policy should be followed even though the proposed regulation may come within one or more of the exceptions or exemptions to the requirement for prepublication of proposed rules described in § 336.2(d) (2) (i) and (ii), (3) and (4), unless it is determined by the DoD Component as a matter within its sole and exclusive prerogative that the employment of the exception or exemption is appropriate to satisfy a significant and legitimate interest of the DoD Component or the public.

(c) After their adoption, all regulations for the guidance of the public shall be published in the FEDERAL REGISTER in accordance with 5 U.S.C. 552, even though they may come within one or more of the exemptions described in

32 CFR 286.6. If no significant and legitimate interest of the DoD Component or public precludes such publication. This policy extends to some adopted regulations for the guidance of the public which were not the subject of notice and public comment.

### § 336.4 Proposed regulations.

(a) The general notice of a proposed regulation shall be published in the FEDERAL REGISTER in accordance with the guidance contained in the "Federal Register Handbook on Document Drafting" (GSA), whenever that regulation would have a substantial and direct impact on the public or any significant portion of the public, unless it comes within one or more of the exceptions or exemptions previously set forth in § 336.2(d).

(b) The notice shall include:

(1) A statement of the purpose and objective of the proposed regulation;

(2) Reference to the legal authority under which the regulation is proposed; and

(3) The terms or substance of the proposed regulation.

(c) Whenever the originating DoD Component finds that notice and prepublication of a proposed regulation for public comment are impracticable, unnecessary, or contrary to the public interest, it shall incorporate that finding and a brief statement of its reasons in the adopted regulation, or it may adopt and publish in the FEDERAL REGISTER a separate regulation excepting or exempting categories of regulations for any of these reasons, with an explanation of the basis for excepting or exempting each particular category. Separate regulations for this purpose shall be promulgated by the procedures for proposed rules whenever this falls within the requirements of paragraph (a) of this section.

(d) Following the publication of notice and the proposed regulation in the FEDERAL REGISTER, the DoD Component shall give all interested persons an opportunity to participate in the rulemaking through the submission of written data, views, or arguments. An
